## Children With Special Health Care Needs

### KITTITAS COUNTY PUBLIC HEALTH

**Helping Families with  
Health Concerns**

## How Can This Program Help My Family?

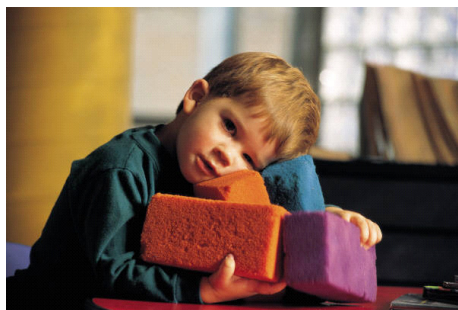

The Children with Special Health Care Needs Program offers the services of a Public Health Nurse to visit you in your home, or by phone or office consultation. They will come alongside your family to help you find:

- Information on health care and community resources.
- Referrals for health care and community resources.
- Developmental screenings
- Information on current health concerns.
- Parenting information.

## Is my child eligible for CSHCN?

- Must be under the age of 18.
- With a condition that prevents them from growing, developing and playing like other children.
- Or at risk of becoming delayed, disabled or handicapped.

This program is most helpful for a family who have recently been told they have a child with a special need or when a new concern comes up for a child already known to have a special need.
