

WA State Latina Health Symposium

Tools for Public Health & Social Service Providers

The annual Latina Health Symposium provides a forum for participants to come together to learn and discuss health-related topics that impact Hispanic/Latina women.

This year we are going virtual - one symposium for all of WA State!

The 2020 theme will focus on COVID-19 among the Latina community and their families.

Speakers will cover current and upcoming COVID-19 issues facing the Latino community as well as resources available. We hope you can join us!

Who should attend:

- Public health professionals
- Lay health workers (*promotores*)
- Clinicians
- Social service professionals
- Community health workers and educators
- Outreach workers
